CANAL NEWS .- The Cumberland Transcript of yesterday moraing says : --

The first departure of the season, on the Ca nal, took place yesterday, the boat "A. Jackson Clark," belonging to American company's line taking the lead. About ten boats left this port during the day, taking eurgoes for the Ameri can, Hampshire and Baltimore & Consolidation Companies. The latter company commenced loading yesterday.

No report has been received of any damage done on the line of the Canal by the high waters, and it is hoped that everything is in good order. At Georgetown the wharves were submerged, and the Potomac was on a general rampage.

Quite a number of boats are coming in, and the crews generally are getting things in shipshape."

The Washington Star of yesterday evening

"The Canal has hardly been opened for navi gation before a break has occurred, the accident this time being caused by a wash in the embankment at the head of the 9 mile level, about forty miles above Georgetown. Two or three days, however, will suffice to repair all damages.

THE A. & W. R. R. IMBROGLIO. -- A motion was made at 11 o'clock this morning before Judge Hill, at the sheriff's office, by Col. G. W. Brent, counsel for the "Shoemaker" company, to dissolve the injunction restraining that company from helding possession of the Alexandria and Washington Railroad, but the Judge declined to entertain the motion, and postponed the further consideration of the case until tomorrow, by which time it could be determined whether Judge Keith had qualified, stating that he had informed Judge Keith that he should cease to act as judge on the 31st of March, and that he coasequently supposed Judge Keith had qualified and was at present the judge of this circuit.

In the mean time all operations on the line of the railroad have ceased, the locomotives and cars remaining stationary at the St. Asaph street depot in this city, and the only trains passing over the road being those of the Orange, Alexandria and Manassas Railroad Co.

ALEXANDRIA CHRISTIAN ASSOCIATION.-In order to correct an erroneous impression with regard to the daily prayer meetings held under the auspices of the Alexandria Christian Association, we are requested to state that the room of the association will be open daily at h past 4 o'clock in the evening, until further notice, for prayer. We are also requested to state that the resolution passed at the March meeting of the association, requesting the committee to enquire into the expediency of abolishing the daily prayer meetings, was simply intended to proveke, if possible, a further interest on the part of the members of the committee in these meetings.

One of the principal uses of Hostotter's Stomach Bitters is to tone and control this somewhat unruly organ. The antibilious properties of the preparation are scarcely secondary to its virtues as a stomachic. Its operation upon the liver is not violent like that of mercury, but gradual and gentle. Instead of creating a sudden turnul in that executions of creating a sudden turnul in that executions. den tumult in that sensitive gland, it regulates its action by degrees. Hence, it is a safe remedy for bilious disorders, while mercury, being a tremendous excitant, is not. BANKERS AND DEALERS IN GOVERN.

30. 5 NASSAU STREET, NEW YORK,

The remarkable success which attended our blood to the requirements of the system and the due removal of the refuse matter which remains in the intestines after the work of digestion has PACIFIC RAILROAD COMPANY, and the popularity and credit which these Loans have maintained in the markets, both in this country and Europe, have shown that the First Mortgage Bonds of wisely-located and honorably-managed Railroads are promptly recognized and roadily taken as the most suitable, safe and advantageous form of investment, yielding a more liberal income than can hereafter be derived from Government Bonds, and available to take their place.

Assured that, in the selection and negotiation of superior Railroad Loans, we are meeting a great public want, and rendering a valuable service-both to the holders of Capital and to those great National works of internal improvement whose intrinsic merit and substantial character, entitle them to the use of Capital and the confidence of investors-we now offer, with special confidence and satisfaction, the

FIRST MORTGAGE BONDS

OF THE Chesapeake and Ohio Railroad Co.

The Chesancake and Ohio Railroad, connecting the Atlantic coast and the magnificent harbors of the Chesapeake Bay with the Ohio River at a point of reliable navigation, and thus, with the entire Railroad system and water transportation of the great West and Southwest, forms the additional East and West Trank Line, so imperatively demanded for the accommodation of the immense and rapidly growing transportation between the Atlantic senboard and Europe on the one hand, and the great producing regions of the Ohio and Mis-

eissippi Valleys on the other. The importance of this Road as a new outlet from the West to the sea magnifies it into one of national consequence, and insures to it an extensive through traffic from the day of its completion; while, in the developement of the extensive agricultural and mineral resources of Virginia and West Virglain, it possesses, along its own line, the elements of a large and profitable local business. Thus the great interests, both general and lo-

Its superiority as an East and West route, and the promise of an immense and profitable trade awaiting its completion, have drawn to it the attention and co-operation of prominent Capitalists and Rudroad men of this City, of sound judgment and known integrity, whose

connection with it, together with that of emi-
